From Richfield in Sevier county, forty miles away from Sterling, where there are fifteen cases, has come a vigorous petition signed by fifty-three quite prominent criticens, directed to the board of health. They ask that action be taken at once by the state board of health. Heber Clayton of Richfield has been confined for some time and it is now known that the case has developed. The petition recites that he is kept in the center of the town, that due precaution has not been taken by the local health officers and they want an immediate investigation.

Dr. Reatty will wire to the county physician before triking action. He is unable to go there today on account of his Spanish Fork case, but he may go on Friday.

How is Your Wife?

Has she lost her beauty? If so, considerable talk as to whom Governor Poynter would appoint to the vacatety. The only ones prominently mentioned are ex-senator Allen and G. M. Hitchcock, editor of the Omaha World-Herald.

The Democrats are urging the appointment of the latter on the ground that they have not received their proportion of the offices under the fusion deals of the part few years. They also urge that the next legislature, which must permanently fill the vacater, will have two senators to select, the Hayward successor and one to succeed Senator Allen. # IN THE ART INSTITUTE

"BLACK ROCK"-J. T. Harwood.

Much interest is being manifested by lovers of art in the exhibition which is in progress under the auspices of the and the work of J. T. Harwood, John Utah Art institute. It is a fine collection of pictures, and those who are in touch with art matters manifest their appreciation by their attendance. Crowds filled the big hall yesterday, and they were made up largely of people who are good judges of the right and, wrong of artistic matters. The pictures from the east created many comments as to their beauty, but it is a pleasing compliment to the Utah artists that their work was speken of almost as highly. Some of the best art crities say that they compare very favorably with the work of the eastern men, who are artists known the world over.

All of the local artists have paintings on exhibition, and they are all the best studies that they have made.
